

# Memorandum

RECEIVED  
DIVISION OF OIL & GAS  
SACRAMENTO

JUN 1 2 21 PM '82

To : Si Cordova  
Sacramento

Date : May 27, 1982

Subject: Aquifer Exemptions  
Under the UIC

From : Department of Conservation—  
Division of Oil and Gas

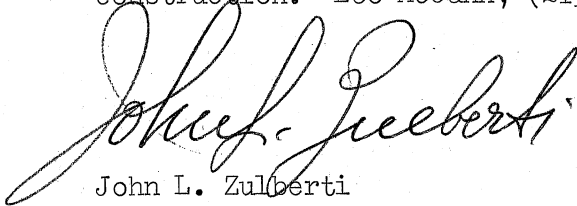

**Place:**

Attached is a table of items requested in Attachment B to your memorandum of May 14, 1982.

We also have a new project in the Monterey County area that was not on our original list. It was approved on August 19, 1981 and will involve a major capital expenditure.

The aquifer has 7210.9 ppm TDS and the injected water 8974.9 ppm. As the project area is outside the boundaries of the field, the aquifer will not be exempt.

Texaco Inc. should be informed at once as to the need to obtain EPA approval to use this aquifer before committing considerable resources in planning and construction. Leo McCann, (213) 385-0515, is the contact man.

John L. Zurberti  
Deputy Supervisor
